You are Invited to a **BLM PUBLIC OPEN HOUSE**

Come see the BLM's Land and Mineral Use Records systems. This Open House can benefit energy, title, utility, education, mining, planning, and environmental users.

NILS GeoCommunicator Learn how to:

- Download PLSS data (Township/Range/Section grid).
- Map BLM land and mineral use authorizations such as: oil and gas, geothermal, coal, mineral material disposal, rights-of-way, stipulations, conveyances, mining claims, and more.
- Link parcels directly to LR2000 reports
- Map grazing allotments and pastures-link allotments to grazing reports.
- View federal surface management agency boundaries and U.S. Forest Service sale parcels.
- View and print parcels with reference maps: topographic, aerial photography, federal lands, PLSS, and roads.
- Use GeoCommunicator map services within your own GIS.

LR2000

Learn how to:

- Run reports from LR2000 such as serial register pages, geographic reports, acreage reports and more.
- Run reports with search options such as date, land description, serial number, etc.
